

felt making and decoration

Schools Outreach Session for Key Stage 3 and Upper Key Stage 2 led by a Museum Educator

Learn about the science and history of felt making. Design and make your own piece of felt using the wet felting process.

Look at genuine museum costume artefacts and discuss why we decorate ourselves and our clothing. Why are clothes not just plain and functional?

Full day session - Use your felt to create a piece of decorative headwear or jewellery to your own design.
