

history detectives

Schools Outreach Session for Key Stage 2

How do archaeologists and historians use evidence from the past to find out how people lived and worked long ago?

Use your detective skills to guess what the 'mystery' museum artefacts are and what they were used for?

Sort a selection of battlefield 'finds' to deduce whether they belonged to a rich or poor person.

Order Order! – can you put our historical artefacts in the right chronological order on the timeline?

Have a go at accurately drawing the evidence from an archaeological dig and use our metal detectors to unearth mystery treasure!

Curriculum Links

KS2 History:

'knowledge of the past from a range of sources'

'connections, contrasts and trends over time'

Session length: 1 hour
